Course Overview

Cleveland Clinic Abu Dhabi has collaborated with ACGME to host on annual basis one of its renowned training courses, which is the Assessment Hub training course. Throughout the course's two days, you will be introduced to key strategies, resources, and tools to build an effective assessment system and apply best practices.

This highly interactive course will feature speakers from Cleveland Clinic Abu Dhabi.

Course Goal

The course will focus on building assessment skills of individual faculty members or others at the front lines of residents and fellow education.

Course Learning Objectives

- Apply key principles of outcome-based training and competency-based training in GME
- Build and follow effective performance assessment strategies in your CCC
- Enhance methods used to collect assessment data for professional development
- Apply effective practices in work-based assessment

Target Audience

This course is designed ideally for Program Directors, Chairs and members of Clinical Competency Committees (CCCs) and Program Evaluation Committees (PECs) and faculty members responsible for assessing the knowledge and performance of medical interns, residents and fellows
